

*We've got what it takes*

## ... in interim management

### Your questions:

- Our mutual project must be done in time and lege artis. Who is responsible for project management?
- Who will support us in developing the project plan with work packages and activities including time and cost estimation?
- Presentation documents must be generated. Who will help us in doing this?
- We need support in project documentation. Who will do this for us?

### Our service:

ASPIRAS is familiar with all tools of project management. Based on individual project activities ASPIRAS is working together with the customers' team towards the goals of the project. Team members of ASPIRAS are managing team meetings and brain stormings and are preparing documentation and presentations on the project.

The ASPIRAS team of experts will support you in evaluation of the project value. Costs and potential sales volume will be determined and compared. Based on scenario monitoring and results of the market observation the ideal moment of market entry of your new products will be determined.
